

Modbus TCP/IP Enhanced Communication Module MVI69E-MBTCP

The MVI69E-MBTCP Modbus TCP/IP module for the CompactLogix™ series of controllers is designed for all applications requiring Modbus TCP connectivity. This module comes with an Add-on Profile and an Add-on Instruction to reduce commissioning time. The MVI69E-MBTCP has a single Ethernet port for diagnostic and application data. The module supports both Client and Server connectivity to interface with a variety of devices using the Modbus Protocol.

Features

- ◆ Supports CompactLogix processors with 1769 I/O bus capability version 16 and greater (MicroLogix 1500 not supported)
- ◆ Add-on Instruction creates UDTs, providing logical definitions for I/O, status, and control data
- ◆ Add-on Profile support, improving integration in the CompactLogix System
- ◆ Diagnostic data available in processor controller tags, enabling decisions to be made based upon node health
- ◆ Module configuration backed up in CompactLogix project (ACD file)
- ◆ Module acts as a co-processor reducing impact to PLC scan time
- ◆ Supports up to 10,000 words of data
- ◆ Supports up to 20 Client and 20 Server connections simultaneously
- ◆ Supports Enron and Daniel style Floating point data implementation
- ◆ Suitable for SCADA and field device interface applications

General Specifications

Configuration	ProSoft Configuration Builder	
I/O Size	60/120/240 - 16 bit integers	
Available Data	10,000 words	
Floating Point Data	Floating point data movement supported, including configurable support for Enron, Daniel®, and other implementations	
Modbus Function Codes Supported	1: Read Coil Status 2: Read Input Status 3: Read Holding Registers 4: Read Input Registers 5: Force (Write) Single Coil 6: Preset (Write) Single Holding Register 8: Diagnostics (Slave Only, Responds to Sub function 00)	15: Force(Write) Multiple Coils 16: Preset (Write) Multiple Holding Registers 17: Report Slave ID (Slave Only) 22: Mask Write Holding Register (Slave Only) 23: Read/Write Holding Registers (Slave Only)

Functional Specifications

Modbus Client

Configured as a Modbus Client, the module actively issues Modbus commands to other nodes on the Modbus network.

Client Connections	20
Command List	Up to 16 command per Client connection, each fully configurable for function, slave address, register to/from addressing and word/bit count.
Command Control	Configured commands can be controlled directly from ladder logic
Polling of command list	Configurable polling of command list, including continuous and on change of data.
Status Data	Error codes available on an individual command basis. In addition, a slave status list is maintained per active Modbus Client

Modbus Server

Configured as a Modbus Server, the module acts as a node and permits a remote Client to interact with all data contained in the module.

Server Connections	10 - MBAP Connections 10 - Encapsulated Modbus Connections
Status Data	Error codes, counters and port status available per configured slave

Global Distribution

ProSoft Technology® products are distributed and supported worldwide through a network of over 500 distributors in over 50 countries. Our knowledgeable distributors are familiar with your application needs. For a complete list of distributors, go to our web site at:

www.prosoft-technology.com

Global Support

We are there for you

All ProSoft Technology products are backed with free, technical support and a three year warranty. Contact our worldwide Technical Support team directly by phone or email.

Global Offices

We are where you are

ProSoft Technology has regional offices worldwide available to help you with all your industrial application needs. If you need help choosing a ProSoft Technology solution for your particular application check out our contact information under *About Us* on the web site at:

www.prosoft-technology.com

Whether your application is large or small, our technical professionals are there to help you choose the right communication solution.

Hardware Specifications

Specification	Description
Dimensions	Standard 1769 Single-slot module
Current Load	500 mA max @ 5 VDC Power supply distance rating of 4
Operating Temp.	32° F to 140° F (0° C to 60°C)
Storage Temp.	-40° F to 185° F (-40° C to 85° C)
Relative Humidity	5% to 95% (with no condensation)
LED Indicators	Configuration Status Application Status Backplane Connectivity Status Module Status
Debug/App Port	10/100 Ethernet Port (Auto-negotiating)
Shipped with Unit	1 - 6 foot Ethernet Cable

Agency Approvals & Certifications

Agency
ATEX; Category 3, Zone 2
CE Mark
CSA; CB Safety
Environmental
KCC
RoHS Compliant
UL/cUL; Class 1, Div. 2 Groups A, B, C, D

Additional Products

ProSoft Technology® offers a full complement of hardware and software solutions for a wide variety of industrial communication platforms. For a complete list of products, visit our web site at: www.prosoft-technology.com

Ordering Information

To order this product, please use the following:

Modbus TCP/IP Enhanced Communication Module

MVI69E-MBTCP

To place an order, please contact your local ProSoft Technology distributor. For a list of ProSoft Technology distributors near you, go to: www.prosoft-technology.com

and select *Where to Buy* from the menu.
